

All-In-One Platform

AI-POWERED DATA ANALYTICS SOLUTION FOR BROKERS & PROP FIRMS

ONE PLATFORM. ONE VIEW. FASTER, SMARTER DECISIONS.

AIBI.Global helps brokers and prop firms **grow revenue and reduce losses** by improving trader retention, enabling proactive sales engagement, and delivering intelligent risk management — all in one unified AI-powered analytics platform.

Most firms today use separate systems for:

Sales & Retention

Risk & Abuse Monitoring

KPIs & Management Oversight

This results in:

⚠ High client churn

⚠ Missed profit opportunities

⚠ Slow reaction to risks & undetected revenue loss

⚠ Manual data monitoring increases risk of errors

AIBI.GLOBAL BRINGS EVERYTHING TOGETHER

One Platform

One Source Of Truth

Higher Profitability

15+ ANALYTICS MODULES IN ONE DASHBOARD

Not just reports — intelligence that drives outcomes

Retention & Sales Performance Intelligence

Exposure Monitoring in Real Time

Management KPI Performance Monitoring

P&L Monitoring

Margin Call Report
(Proactive Sales & Retention Tool)

AI Predictive Analytics
(Trader Success & Risk Forecasting)

Abusive & Toxic Flow Detection

TWO VERSIONS. SAME AI CORE.

Adaptable for Different Operational Models.

SPARK

For firms with up to ~500 active accounts
— early-stage, growing, or lean teams.

- **Launch fast**
nearly instant deployment, without complex setup or onboarding delays
- **No deep analytics expertise required**
key insights are generated automatically
- **Built-in best-practice analytics**
designed from real broker & prop firm workflows
- **Best subscription price on the market**
for early-stage and cost-sensitive firms — one platform replaces several paid tools
- **Grow without hiring**
scale accounts and trading volume without expanding headcount or infrastructure

JET

Unlimited amount of active accounts — real-time oversight and full customization for brokers and prop firms.

- **Always up to date**
— new improvements and features are rolled out automatically
- **Unlimited active accounts**
— engineered for high-volume operations
- **Customizable dashboards and analytics logic**
— adapt the platform to your workflows
- **Works with all major trading platforms**
— flexible and stable integration
- **Unified real-time environment**
— a single source of truth across the organization
- **Enterprise-grade access controls**
— align data visibility with roles and responsibility

Upgrade To JET Seamlessly As You Grow

PROVEN RESULTS WITH REAL BROKERS & PROP FIRMS

AIBI.Global's analytics engine has already delivered **measurable increases in profit, reduced losses, and strengthened retention** across firms of different sizes. **JET** is the upgraded, more powerful version of this analytics core — meaning the results below are a baseline of what the system already achieves. **With JET, these outcomes scale even further.**

Prop Firm (~12,000 accounts)

+\$4.7M

revenue generated
by preventing margin-call
liquidations

+\$1.94M

net profit from trader
behavior-based
allocation decisions

+\$448K

net profit preserved through
early detection of abusive
trading behavior

Prop Firm (~1,200 accounts)

+\$220K

revenue generated
by preventing margin-
call liquidations

+\$138K

net profit from trader
behavior-based
allocation decisions

+\$7K

saved by blocking
toxic trading / scalpers
/ latency abuse

NEXT STEP

Whether you're scaling an established organization or building a lean, fast-growing team — we'll help you choose the version that fits your stage:

SPARK

Same intelligence core, optimized for lean teams and early-stage firms

JET

Enterprise-grade platform for brokers and prop firms scaling in volume and complexity

We'll be happy to walk you through our current setup, discuss challenges, and show how our platform can increase profitability, strengthen risk control, and improve trader retention.
